		<i>m high and ravines on the other side. Over the years, the road has deteriorated as a result of storm water drain paths causing instability and settlement of the road edges and bulging of the masonry retaining walls. As part of the project, the existing retaining walls will be rehabilitated and consolidated. Works may require piling.</i>	
6	Works	<b>Rehabilitation of Gros Bois-l'Escalier Road</b> <i>The project consists of the strengthening and resurfacing of the Gros Bois - L'Escalier Road B71 over approximately 2.3 km. Restitution of road marking and traffic signs as well as cleaning and refurbishing of existing drainage structures are also included.</i>	March 2014
7	Works	<b>Rehabilitation of Footbridges</b> <i>There are 3 steel footbridges on Motorways M1 and M2 as well as on the A1 Road which need to be inspected and refurbished.</i>	March 2014

Date: **13 January 2014**

		<i>The works will inter alia include: Cleaning, painting including appropriate corrosion protection measures, restoration of the lighting system, repair and replacement of damaged/corroded roofs, cladding and other elements.</i>	
8	Works	<b>Upgrading of Hillcrest Avenue(B128), Q.Bornes</b> <i>The project consists of the upgrading of the existing road along its whole length (approximately 1.5 Km). Drainage structures, including lateral and cross drains, would be provided on both sides of the road, wherever required, to channel runoff water safely from the carriageway. To improve road safety, footpaths which may also serve as jogging tracks, will be provided on each side of the road. Moreover, street lighting will also be provided. The project would also incorporate safety features such as road markings, handrails, traffic signs, cat's eyes, pedestrian crossings etc wherever required.</i>	August 2014
