

ROAD DEVELOPMENT AUTHORITY

CONSTRUCTION OF A FLYOVER AT PALMERSTONE VACOAS

1.0 Aim of the Project

With the increasing growth of traffic over the last decade, the existing road configuration from Vacoas up to Palmerstone junction and Jumbo roundabout are subjected to chronic traffic congestion. Besides, with the implementation of the Metro Express project, only one lane will be available for traffic. And this will lead to even more congestion, increase in travel time.

The flyover will help in alleviating the chronic traffic congestion from Vacoas up to Palmerstone junction and Jumbo roundabout and enable a better interface of the road network with the Metro Express Project.

2.0 Contract Data

Employer: Road Development Authority

Contractor: TRANSINVEST Construction Ltd

Contract Amount: MUR 394,085,450 Incl. VAT

Commencement Date: August 2020

Completion Date: July 2022
