

ROAD DEVELOPMENT AUTHORITY
CONSTRUCTION OF A FLYOVER AT QUAY D ROUNDABOUT
(DESIGN-BUILD/TURNKEY)- CPB/59R/2020

1.0 Project details

Contractor:	TRANSINVEST Construction Ltd
Contract Amount:	MUR 304,940,000.00 Excl. VAT MUR 350,681,000.00 Incl. VAT
Contract Period:	540 Calendar Days

2.0 Aim of the Project

The Quay D round about is a major access point for the port area and is currently operating beyond capacity, during both peak and off-peak hours, with subsequent queuing along Motorway M2 and adjacent roads such as Marine Road and Military Road B30.

As per the Government Programme 2020-24, with an emphasis among others on ‘Inclusiveness at the Heart of the Nation’, the Government is investing to further modernise the road network across the country. In the recent years there has been major development along the Motorway M2, where the road corridor has been widened between the Port area and Jin Fei (Riche Terre) to facilitate port-based activities.

With a similar objective, RDA has identified scope for further improvement in the adjoining region, from Port Louis Centre to Port Area along Motorway M2, with a view to eliminate the Quay D roundabout and improve traffic flows.

In light of the above, RDA is undertaking the Quay D flyover Project to:

- segregate the main traffic along Motorway M2 and traffic accessing the adjoining regions
- alleviate the traffic congestion along Motorway M2 and surrounding roads (Marine Road and Military B30 road)
- provide a better road interface through safer access corridor for logistics within the port area
- decrease travel times and reduce vehicle operating costs
- increase the level of service of the road to enhance both safety of vehicles and pedestrians
- boost economic development within Port Louis

3.0 Scope of Works

- Elimination of Quay D roundabout and continuity of Motorway M2
- A fly-over (single carriageway) across Motorway M2, and a traffic scheme with slips lanes on both sides of the Motorway to connect to the Port Area and existing roundabout along Military Road.
- Construction of a footbridge between Quay D round about and Mer Rouge roundabout
