

PROJECT BRIEF

1. Project Title

CONSTRUCTION OF A ROUNDABOUT AND ACCESS ROAD ALONG GOODLANDS BYPASS

2. Detailed Project Description

The project consists of the construction of a new roundabout on the existing Goodlands Bypass and a new access road of an approximate length of 630m.

The new access road will be equipped with footpath, cycle track, drains, street lightings amongst other facilities for the safe and convenient movement of road users and pedestrians.

3. Aims and Objectives of the Project

This project intends to provide an access for future inhabitants of the NSLD residential development onto Goodlands Bypass.

The new roundabout will also facilitate access to the villages of Goodlands and Poudre d'Or for road users exiting from the new Market Fair and Traffic Center located on Goodlands Bypass.

4. Benefits of the Project

The implementation of the project will ultimately:

- Provide access to future inhabitants of the NSLD residential development;
- Improved access facility to the served localities including the villages of Goodlands and Poudre d'Or, thus improving their attractiveness;
- Reduce travel time and vehicle operating costs;
- Increased accessibility to public transport services;
- Improve efficiency and road safety.

5. Scope of Works

The scope of works consists, inter-alia, of the following:

- Construction of a multi-lane roundabout;
- Construction of a 7-meter wide access road of approximate length 630m;
- Provision of a cycle track;
- Construction of retaining walls, drainage structures and footpath;
- Relocation of existing services;
- Provision of road furniture such as guardrail, traffic signs, street lighting, etc;
- Landscaping works.
