

## Project Brief

Project Title: Construction of a Flyover on Motorway M1 at La Vigie

### 1. Introduction

During the conceptualization of phase 1, the connection of the La Vigie-La Brasserie-Beaux Songes Link Road with the Motorway M1 at La Vigie, was to be made through a roundabout. A policy has, in the meantime, been adopted in line with Government Programme 2020-2024, to replace roundabouts, as far as possible, with flyovers or grade separators.

In line with the above, a flyover on Motorway M1 at La Vigie to connect with the New La Vigie-La Brasserie-Beaux Songes Link Road is being implemented and will be completed before the Flic en Flac bypass is operational.

### 2. Project Layout

### 3. Detailed Project Description:

The Project will be carried out on a design and build basis and will consist of the following works:

- Surveys and Investigations;
- The proposal of a concept/design for a flyover at La Vigie;
- Construction of the Flyover inclusion of cycle lane;
- Construction of a slip lane inclusion of cycle lane from the Motorway (South bound) to connect with the flyover;
- Construction of a slip lane from the flyover to connect with the Motorway (South bound);
- Construction of single carriageway inclusion of cycle lane connection the flyover to the new La Vigie La Brasserie Beaux Songes link road.
- Rerouting and protection of existing services and relocation of relics, trees, etc.;
- Construction/upgrading of drainage and retaining structures;
- Provision of miscellaneous road equipment such as carriageway markings, traffic signs, handrails, safety fences, road lighting, etc.;
- Landscaping works, and
- Ancillary and associated works described in the Employer's Requirements and Drawings.

#### **4. Benefits of the project:**

- The flyover will cater for all movements at the junction.
- The northbound and southbound traffic along the Motorway M1 would be segregated from local traffic from the New La Vigie La Brasserie Beaux Songes Link Road.
- Road users will not have a detour through la Vigie roundabout to go towards the south from the New La Vigie La Brasserie link road or through Midland's flyover for traffic coming from the North towards the New La Vigie La Brasserie link road.
- Improve the fluidity of traffic from the Motorway M1 towards the West regions once the La Vigie Cascavelle link road is operational.

## **5. Project Data**

Letter of Award issued on 09 November 2023

Order to Commence work issued on 17 January 2024

Expected completion date on 11 April 2025.

Contractor – General Construction Co. Ltd

Project Value – MUR 270.25 million inclusive of VAT

Duration of the Project - 15 months

**6. Physical Progress:** 35% completed.
